

Nail Dust Collector with Odor Control

Salon-Air™

The Salon-Air™ was specifically designed for the nail salon industry with the client and technician in mind. The air cleaner removes contaminants and dust at the source instead of allowing them to spread around the entire shop. This small tabletop unit was designed to fit on manicure tables where space is a premium. Even though the unit is small, it provides superior performance.

FEATURES

- Easy to use single switch control
- High performance washable main filter
- Light weight and portable
- Infinitely variable speed motor/blower allows for precise airflow control
- Compact design made specifically for manicurist tables
- Powerful balanced blower for quiet operation
- Two post carbon filters for odor control
- 10 ft power cord with standard plug
- Easy grille removal for quick filter access
- Very low energy consumption (Comparable to a light bulb)
